May 26, 2009

Dear Valued Customer,

To date, our conformance to the Environmental & RoHS Standard for Parker-Kalon product is as follows.

Raw material including low carbon steel, stainless steel, and related fastener components all meet the RoHS directive. All stock plated product is trivalent chromate or RoHS compliant. Made to order product is specific to the customer's request. Should the MTO product deviate from RoHS compliance we require a letter of deviation indicating the customer is responsible for non-compliance. This letter of deviation must be received by the company before manufacturing and shipping the product.

Also be advised that our products do not contain dimethyl fumarate.

Should you have any questions, you may call me at 270-789-6040.

Steve Pike  
Director of Manufacturing

Emhart Fastening Teknologies
