**New POP NUT® PNT110 Rivet Nut Tool Kit Features Convenience,
Durability and a Wide Assortment of POP NUT Inserts and
Rugged All Purpose POP NUT Tool**

***The POP NUT manual tool designed for the professional and ideal for
light engineering work, site work, repair & maintenance***

Shelton, Conn. (June 15, 2009). Emhart Technologies has just expanded their line of POP NUT Blind Rivet Nuts and Tools with the addition of two new Tool Kits – featuring the PNT110 Manual Tool.

Russ Brown, Marketing Manager, said “The PNT110 is ergonomically designed to fit your hand with contoured grips for comfort and easy to maintain. The tool’s easy –to – use quick change mandrel and nosepiece design allows the user the flexibility of setting different size nuts”.

Kits are equipped with either Inch size or Metric size POP NUT rivet nuts.

The PNT110 Inch kit (*PNT110-I-KIT*) contains mandrels and nosepieces for 6-32, 8-32, 10-24, 10-32 & ¼-20 size inserts. The Inch kit also includes a 190 piece assortment of the most commonly used unified thread inserts to be used in a wide variety of applications.

The PNT110 Metric kit (*PNT110-M-KIT*) contains mandrels and nosepieces for sizes: M3, M4, M5 & M6. The Metric kit also includes a 190 piece variety of Metric threaded inserts, ideal for use in a broad range of applications.

Both PNT110 Kits are the ideal solution for your professional and general use including auto body repair, automotive and garage applications, industrial MRO and home operation needs.

FEATURES & BENEFITS:

- Robust aluminum casting and steel construction.
